

Temperature control

Vetrospace pods can be equipped with an optional automatic cooling and heating system. This clever solution is based on the same principle as a heat pump and operates extremely quietly.

Automatic air temperature control can be fitted to **GROUPSPACE** series pods M to XXL. It works completely independently and does not require HVAC connection. Remote controller is included.

Technical specifications

- Nominal cooling power:** 1,8kW
- Nominal heating power:** 1,7kW
- Energy efficiency class (cooling):** A
- Energy efficiency class (heating):** A
- Maximum energy consumption :** 0,4-0,76kW
- Sound pressure (internal):** 27-34dB(A)
- Sound pressure (external):** 5-10dB(A)
- Temperature range:** +15 - +30C
- Evaporation:** Automatic
- Coolant:** R410A
- Control:** Remote controller
